

CYBER LIABILITY

Multiple “A” Rated Markets

Top 5 Reasons You Need Cyber Liability

1. **Breach of network security/privacy** - A data breach can involve the loss or theft customer data (personally identifiable information), company data (proprietary information) or employee data (including third-party vendor information)
2. **Data Recovery Costs** - Once personally identifiable information has been lost or stolen; you must incur the necessary costs to recover it.
3. **Breach Notification** - Upon the discovery of the incident, you are legally required to notify those parties affected by the breach.
4. **Regulatory Fines/Penalties** - There are specific state and federal fines or penalties which you are required to pay.
5. **Loss of Income/Revenue** - The time it takes to resolve the situation may keep your company from functioning, resulting in a huge loss of revenue or income.
