

CYBER LIABILITY

It's not if it will happen to you, it's when.

**AVERAGE PHISHING
CLAIM COST IN 2017**

 **\$96K**

Real Life Claim

A company that provides e-commerce solutions for a range of online businesses had a hacker group attack their servers. This caused a temporary disruption of their operations and the hackers threatened to bring their service down completely if they did not pay a six-figure ransom.

Thankfully the insured had a cyber policy which covered the legal and technology teams' fees and IT forensic partners.

Coverage Highlights

- Breach of Contract
- Personal Information Liability
- Cyber Extortion Coverage
- Media Liability
- Broad Definition of Insured
- Personal Injury
- Risk Management Services
